**1)** Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim 1, drawn to a vessel containing NHS, a water-soluble carbodiimide and a label.

Group II, claims 2-4, drawn to a method for conjugating a label to a target involving hydrating a sequestered mixture of dry reagents.

Group III, claims 5 and 6, drawn to a method of conjugating a label to a target involving derivatizing a label with a heterofunctional reagent, activating the unreacted functionality of the heterofunctional reagent, followed by a hydration step.

Group IV, claim 7, drawn to a vessel containing a derivatized label and an activating reagent in dry form.

**2)** The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The "vessels" of Groups I and IV contain no "special technical feature" in common. The vessels of each of claims 1 and 7 contain different components (see the characterization of the Groups above).

The conjugation methods of Groups II and III involve combinations of different reaction steps using diverse reactants (see the characterization of the Groups above).

Neither of the methods of Groups II and III use the "vessels" (or the same components in the same form which are contained in the vessels) of Groups I or IV.

**3)** Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1641

**4)** Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
